SOFT SKILLS

Creative Problem Solving

CAREER OBJECTIVE

Motivated CSE student at Bennett University with hands-on experience in frontend web development, graphic design, and digital content creation. Seeking internship opportunities to apply skills in building modern, user-focused web solutions and visually compelling digital experiences.

EDUCATION

B.Tech — Computer Science & Engineering

Bennett University • Greater Noida, U.P.

Aug 2025 – 2029 (Expected)

- Participated in Smart India Hackathon (SIH) — national-level competition in teamwork & problem-solving.
- Led team project on Edugigs freelancing platform; built leadership and project management skills.
- Built SkySentry at Hackaccino 4.0 — 24-hour innovation hackathon (Bennett University & HackCulture, Apr 2026).

EXPERIENCE

Social Media Executive

ARC Esports • Remote

2026 – Present

- Manage ARC Esports Instagram (@arcesportsapp) — content calendar, post scheduling & audience engagement.
- Design tournament graphics, esports banners & campaign posters in Canva and Photoshop at 1080×1350px.
- Developed a complete brand color reference system (core: ARC Purple #7B4FD8) for visual consistency.
- Produced cinematic SVG campaign posters and multi-style tournament background assets for events.

Freelance Web Developer & Designer

Self-Employed • Pichhore, M.P.

2026 – Present

- Build and pitch polished demo websites for local businesses — clinics, resorts & restaurants.
- Delivered sites for Chaudhary Medical Store & Clinic, RPS Resort, and Tilakram's Sweets & Bakery.
- All projects in vanilla HTML/CSS/JS — no frameworks, CDN-only, lightweight and fast.
- Three-tier model (Starter / Professional / Ultimate) with WhatsApp-based client onboarding.
